

VO QUOC DINH

Frontend Developer · ReactJS · Next.js · TypeScript

Thu Duc City, HCMC, Vietnam | +84 399 967 453 | vqdinhh2202@gmail.com
github.com/VQuocDinh | linkedin.com/in/voquocdinh | voquocdinh.vercel.app

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building and maintaining high-performance, cross-platform web applications with ReactJS, Next.js, and TypeScript. Strong command of React fundamentals — hooks, context, and state management with Redux/Redux Toolkit — and skilled at designing scalable frontend architectures from Figma designs. Experienced integrating RESTful APIs and real-time WebSocket data, optimizing performance across platforms, and participating in CI/CD, testing, and release processes within Agile teams. Solid testing practice with Jest, React Testing Library, and Detox (React Native E2E). Based in HCMC and available for onsite work; accelerated delivery by 30–40% through AI-assisted workflows (GitHub Copilot, Cursor).

TECHNICAL SKILLS

Frontend: ReactJS, Next.js (SSR/SSG), TypeScript, JavaScript (ES6+), HTML5, SASS/SCSS, Tailwind CSS, Framer Motion

React Core: Hooks, Context API, Redux / Redux Toolkit, React Query, Component-based & scalable architecture

APIs & Real-time: RESTful APIs, WebSocket, JSON, Swagger

Testing: Jest, React Testing Library, Detox (React Native E2E), Unit & Integration Testing

DevOps & Tools: Git/GitHub, CI/CD (GitHub Actions), Docker, Vercel, Render, Jira, Figma

Mobile: React Native (cross-platform)

Backend (familiar): Node.js, NestJS, RESTful APIs, PostgreSQL, JWT/OAuth2

AI Productivity: Cursor, GitHub Copilot

PROFESSIONAL EXPERIENCE

ReactJS / Frontend Developer

Jan 2025 – Present

BridgeUp Education – EdTech Startup | HCMC (Agile)

Leading frontend development of BridgeUp, a career-development platform serving 500+ users across multiple integrated modules.

- Designed a scalable frontend architecture and reusable component library with ReactJS + TypeScript + Tailwind/SCSS; converted Figma designs into pixel-perfect UI with consistent design tokens and Framer Motion micro-interactions.
- Built reusable logic with React hooks and Context, and managed global state with Redux Toolkit / React Query for predictable, maintainable data flow.
- Integrated RESTful APIs and real-time WebSocket updates (live notifications/status), reducing unnecessary requests and improving data synchronization.
- Optimized cross-platform performance via code splitting and lazy loading, cutting initial load time by ~35% and improving Core Web Vitals; ensured compatibility across Chrome, Firefox, Safari, and Edge with a mobile-first approach.
- Achieved 80% test coverage with Jest + React Testing Library; participated in CI/CD pipelines (GitHub Actions), testing, and release within 2-week Agile sprints (Jira).

Tech: ReactJS, Vite, TypeScript, Tailwind/SCSS, Redux Toolkit, React Query, WebSocket, Framer Motion, Jest, GitHub Actions.

ReactJS / Frontend Developer

Jul 2023 – Dec 2024

DXT Technology Company | HCMC

Developed enterprise-grade web applications serving 2,000+ users, focused on performance, scalability, and code quality.

- Built responsive, cross-platform applications with ReactJS and Next.js (SSR/SSG); improved Lighthouse performance score from 62 to 89 and boosted Core Web Vitals.
- Translated Figma mockups into pixel-perfect, accessible UI with HTML5, SASS/SCSS and Tailwind; maintained design consistency across 4 product modules.

- Integrated third-party payment gateways, RESTful APIs and WebSocket connections; processed 500+ monthly transactions with 99.9% uptime.
- Managed complex client state with React Query, Context API and Redux patterns, reducing re-renders by ~40%; enforced clean-code standards through peer reviews.
- Authored Swagger API documentation and collaborated on contract-first APIs, streamlining frontend–backend integration.

Tech: ReactJS, Next.js, TypeScript, Tailwind/SCSS, Redux, React Query, WebSocket, RESTful APIs, Git.

KEY PROJECTS

AIWine — E-commerce platform for imported wines github.com/VQuocDinh/ai-wine

- Built the storefront in ReactJS with WooCommerce REST API for catalog, cart, COD ordering, and inventory validation.
- Implemented multi-layer caching (client-side, Redis/Upstash, on-demand revalidation), reducing API response time by ~50%.

Medical Record Management System github.com/VQuocDinh/PRMS

- Full-stack healthcare platform with a ReactJS frontend, JWT authentication and role-based access control (RBAC).
- Implemented secure, HIPAA-aware patient-data handling.

Online Music Streaming Platform github.com/VQuocDinh/play-music

- ReactJS streaming app with real-time playback state and an AI-powered recommendation engine (Python) for personalized suggestions.

Coffee E-Commerce Platform github.com/VQuocDinh/hancoffee-service-oriented

- Service-oriented e-commerce system with a ReactJS frontend and Dockerized, scalable infrastructure.

EDUCATION

Posts and Telecommunications Institute of Technology (PTIT)

2020 – 2025

B.Eng. Software Engineering | Thu Duc City, HCMC

- Awarded Excellent Academic Scholarship for 3 consecutive years (GPA > 3.5/4.0).

CERTIFICATIONS & TRAINING

- The Ultimate React Course 2025 – Udemy (2025)
- Front End Development Libraries – freeCodeCamp (2024)
- JavaScript Algorithms and Data Structures – freeCodeCamp (2023)
- TOEIC Listening & Reading: 725 – IIG Vietnam (2024)

LEADERSHIP & ACTIVITIES

KET NOI Volunteer Club – HCMC | Head of Communications (2021–2024)

- Led social media and internal communications, improving cross-team coordination.
- Organized volunteer events, building leadership and collaboration skills that transfer to Agile teamwork.
