

VO QUOC DINH

FULLSTACK DEVELOPER

Thu Duc City, HCMC, Vietnam | +84 399 967 453 | vqdinhh2202@gmail.com
GitHub: github.com/VQuocDinh | LinkedIn: [linkedin.com/in/voquocdinh](https://www.linkedin.com/in/voquocdinh)
Portfolio: <https://voquocdinh.vercel.app/>

PROFESSIONAL SUMMARY

Fullstack Developer (ReactJS & NestJS) with 2+ years of experience building stable, high-performance web systems. Proven track record in optimizing development lifecycles by leveraging AI tools like GitHub Copilot/Cursor to accelerate feature delivery by 30-40%. Possessing a strong problem-solving mindset and technical leadership experience in startup environments, I am dedicated to crafting streamlined, elegant, yet robust products that deliver tangible business value through modern technology and professional workflows.

TECHNICAL SKILLS

Frontend	ReactJS, Next.js (SSR/SSG), TypeScript, JavaScript (ES6+), Tailwind CSS.
Backend	NestJS, Node.js, RESTful APIs, Microservices Architecture.
Mobile	React Native (Cross-platform development).
Databases & ORM	PostgreSQL, MySQL, Prisma, TypeORM
State & Data Management	React Query, Redux Toolkit, Context API
DevOps & Tools	CI/CD (GitHub Actions), Docker, Vercel, Render
Testing & Security	Jest, React Testing Library, Unit & Integration Testing, JWT, OAuth2
Tools & AI Productivity	Git/GitHub, Swagger, Jira, Figma, Cursor, GitHub Copilot

EDUCATION

Posts and Telecommunications Institute of Technology (PTIT) – Software Engineering

Thu Duc City, HCMC | 2020 – 2025

- Awarded Excellent Academic Scholarship (3 consecutive years) for maintaining GPA > 3.5/4.0

CERTIFICATIONS & TRAINING

- The Ultimate React Course 2025 – Udemy (2025)
- Front End Development Libraries – freeCodeCamp (2024)
- JavaScript Algorithms and Data Structures – freeCodeCamp (2023)
- TOEIC Listening & Reading: 725 – IIG Vietnam (2024)

KEY PROJECTS

AIWine – A platform for selling imported wines | Github: <https://github.com/VQuocDinh/PRMS>

- WooCommerce REST API integration: catalog, shopping cart, COD ordering, inventory validation, and cart synchronization after ordering.
- Tối ưu hiệu năng: cache phía client API, Redis (Upstash), on-demand revalidation và API xóa cache.

Medical Record Management System | GitHub: github.com/VQuocDinh/PRMS

- Full-stack healthcare platform with JWT authentication & role-based access control (RBAC)
- Secure patient data management system ensuring HIPAA-compliant data handling

Coffee E-Commerce Platform | GitHub: github.com/VQuocDinh/hancoffee-service-oriented

- Service-oriented architecture e-commerce system with microservices design pattern
- Dockerized deployment enabling scalable, maintainable infrastructure

Online Music Streaming Platform | GitHub: github.com/VQuocDinh/play-music

- Music streaming application with AI-powered recommendation engine using Python
- Implemented machine learning algorithms for personalized music suggestions

PROFESSIONAL EXPERIENCE

Fullstack Developer

BridgeUp Education – EdTech Startup | **Jan 2025 – Present** | HCMC

Leading full-stack development of BridgeUp, a comprehensive career development platform serving 500+ users with many integrated large modules.

- Architected and built scalable frontend using React + TypeScript + Vite + TailwindCSS, implementing code splitting and lazy loading that improved initial page load
- Optimized application performance with React Query for data fetching, reducing API calls and enhancing user experience
- Designed and implemented RESTful APIs with NestJS & Prisma ORM, optimizing PostgreSQL queries that reduced response time
- Built social networking features (posts, likes, comments, sharing) handling 1,000+ daily interactions with real-time updates
- Implemented secure JWT-based authentication & role-based authorization protecting user data across multiple modules
- Wrote comprehensive unit & integration tests using Jest + Testing Library, achieving 80% code coverage
- Collaborated in Agile environment with Product, Data, and Content teams using Jira, consistently delivering features within sprint deadlines
- Tech Stack: React, Vite, TailwindCSS, TypeScript, NestJS, Prisma ORM, PostgreSQL, JWT, Cloudinary, Vercel, Render

Fullstack Developer

DXT Technology Company | **Jul 2023 – Dec 2024** | HCMC

Developed enterprise-grade web applications serving 2,000+ users with focus on performance optimization and scalability.

- Built responsive web applications using React, Next.js, and TypeScript with mobile-first design principles
 - Implemented Server-Side Rendering (SSR) & Static Site Generation (SSG) with Next.js, improving SEO rankings and reducing page load time
 - Integrated RESTful APIs and third-party payment gateways, processing 500+ transactions monthly with 99.9% success rate
 - Managed complex state with React Query & Context API, eliminating prop drilling and improving code maintainability
 - Conducted code reviews for 3 junior developers, establishing best practices and reducing bug rate
 - Created comprehensive API documentation using Swagger, improving frontend-backend collaboration efficiency
- Tech Stack: React, Next.js, TailwindCSS, Node.js, TypeScript, Prisma ORM

LEADERSHIP & ACTIVITIES

KET NOI Volunteer Club – HCMC | **Head of Communications** (2021–2024)

- Led social media and internal communications, enhancing team coordination.
- Organized volunteer events, developing leadership and collaboration skills applicable to agile environments.

CARRER GOALS

Short-Term (1-2 Years): Enhance programming and project management skills, contributing to impactful software projects while learning from seasoned developers.

Long-Term (5 Years): Become a lead developer, mastering cutting-edge technologies and driving innovation in large-scale projects.
